WORK HISTORY

NUTRITION SERVICES ASSISTANT   10/2019 to CURRENT

University Place School District | University Place, WA

- Assessed calories, sodium, sugar and other nutrition data to oversee students' diets.
- Developed nutrition plans addressing individual patient diabetes and food allergies.
- Studied health needs and goals established by dieticians, physicians and nurses to provide nutritious and balanced meals to students.
- Monitored quality control procedures to guarantee preparation and delivery of healthy menu choices.
- Established and maintained thorough and updated nutritional information, ADA and ADP data.
- Coordinated menus and ordered necessary items to prepare food for medical requirements.
- Took meals to over 450 students and checked for satisfaction with dietary requirements

VETERINARY TECHNICIAN ASSISTANT   07/2018 to 01/2021

Uptown Animal Hospital | Gig Harbor, WA

- Established intravenous drips for ongoing hydration in treatment of canines suffering from parvovirus infections.
- Educated caregivers and guardians on animal care, nutrition, medical conditions and disease management.
- Managed medical intervention and therapy for animals in collaboration with supervising Veterinarian.
- Collected patient biopsies and blood samples for laboratory analysis.
- Triaged incoming patients to determine treatment needs and urgency of care.
- Prepared surgical instrument packs and drapes for use in sterile environments by processing in autoclave under high pressure and high temperature conditions.
- Processed new patients and updated client records with key information using standardized registration systems and encrypted databases.
- Administered medications to animals in treatment and documented changes in condition.
- Performed ophthalmological procedures such as tear production testing, topical anesthetic application, fluorescein staining of cornea and tonometry.
- Assisted senior staff with blood analyses and physical assessments.
- Answered owner animal health questions and advised on best care practices.
- Maintained accurate pharmacy records and controlled drug, anesthesia and heartworm test logs.
- Recorded symptoms and documented medical observations to inform treatment decisions.
